Product Family: Display

Double-sided display plate GN 1/2 melamine with slate- and granite-style sides

Serve your most exciting menu items on the double-sided display plate by Pujadas for a sleek, stylish presentation. This double-sided plate looks like slate on one side and granite on the other, offering a stunning, dark background for your eye-catching food items. This display plate features a nontoxic, odorless melamine construction that's SGS-certified for food contact. Melamine, which is a synthetic resin that becomes hardened and formed after heating, looks like porcelain but is more durable and lightweight. It's heat- and corrosion-resistant and has a temperature range of -20°C to 70°C (-4°F to 158°F). This 1/2-size gastronorm plate offers plenty of room for nearly any menu item, from appetizers to desserts and everything in between.
