Soup kettle 10 L aluminum with epoxy coating in black and stainless steel lid

Serve delicious soup at the perfect temperature with the soup kettle by Pujadas. This reliable kettle is made of strong, lightweight aluminum with an epoxy coating that provides durability and resists signs of wear. It offers powerful, consistent heat, with an easy-to-use thermostat for accurate temperature control. The classic kettle shape creates an attractive presentation, and the stainless steel lid features a smooth knob handle. This soup kettle boasts an impressive 10-liter capacity, so it is perfect for busy establishments. Despite being called a soup kettle, it can also be used for purées, creams, sauces and more, offering an impressive level of versatility.
