Oven mitt 30 cm silicone in red

This oven mitt by Pujadas promises superior protection against hot temperatures. Made of silicone, this oven mitt provides excellent insulation without extra bulk, which allows a more accurate feel and better grip on hot items. The textured surface transforms the traditionally slippery silicone surface into one with adequate grippage, and the separate first-finger slot offers additional mobility and security. This 30-centimeter oven mitt has plenty of room for large hands and extends up the arm far enough to provide protection when reaching into hot ovens. Versatile and reliable, this oven mitt is up for any task.
