## 10-quart round beehive double-wall stainless steel serving bowl

Ideal for serving hot and cold foods, the round beehive double-wall insulated serving bowl helps maintain temperatures for up to 40 minutes without preheating or prechilling, and it won't sweat in changing ambient temperatures. Nonporous, noncorrosive and scratch-resistant, this bowl stands up to daily use in any commercial setting. The beehive texture and chip-resistant mirror-finish exterior offer an elegant look for tabletops, salad bars and buffet lines, while the satin interior finish helps hide scratches from utensils.
