Terracotta Collection irregular round serving plate 44.5 x 35 cm melamine in black

With an irregular round shape and rich black color, the Terracotta Collection serving plate by Pujadas creates an organic, eye-catching presentation. A small rim prevents food from sliding off, and the large 44 ½ x 35 cm size offers plenty of room for shared plates, large quantities and more. This serving plate is made of nontoxic, odorless melamine, which is a synthetic resin that becomes hardened and formed after heating. The result is a durable, lightweight plate that's SGS-certified for food contact with a temperature range of -20°C to 70°C (-4°F to 158°F). It's heat- and corrosion-resistant, which is ideal for a wide range of applications, and the terracotta style is perfect for establishments that want a natural, authentic appearance.
