Product Family: Open Grill

Open Grill Without Refractory Base Stainless Steel with V shape grill

The Open Grill without refractory base offers a streamlined grilling solution that breaks free from traditional design expectations. Unlike conventional grills with heavy refractory bases, this model offers more mobility and flexibility for your kitchen, meaning easier installation, lighter weight, and enhanced versatility for any cooking environment. The grill's V-shaped grate channels fat and juices away from the heat source for better flavor retention and even cooking, while its stainless steel finish fits any kitchen. For enhanced convenience and control, the grill includes a handwheel for easy height adjustment up to 400 mm. The tilting grill feature offers three positions - charcoal lighting, flat for cookware, and fat collecting - enabling you to adapt the grill to your specific cooking needs. Designed with robust anchoring points for secure installation, this grill combines flexibility with stability.

Features & Benefits

- 98 x 68.3 x 95.5 cm
