## Flexipan 45 Half-spheres upside down mould for 2.6 cm-diameter 1.6 cm-tall

With a unique construction that's favored by high-class commercial kitchens, this Flexipan mold by Pujadas creates flawless domes with ease. Flexipan features a unique combination of silicone and fiberglass that offers incomparable flexibility, durability and natural nonstick properties. It doesn't need to be oiled and allows a smooth, easy release. The strong design can be used between 2000 and 3000 times before showing any signs of wear, making this mold a dependable and eco-friendly option. It features a temperature range of -40°C to 280°C, so it can be used for freezing, baking and everything in between. Easy to clean and NSF-certified, this versatile dome mold offers exceptional performance for unforgettable results.

### Features & Benefits
