Double-sided serving board GN 1/1 melamine with slate- and granite-style sides

Serve your most exciting menu items on the double-sided serving board by Pujadas for a sleek, stylish presentation. This double-sided board looks like slate on one side and granite on the other, offering a stunning, dark background for your eye-catching food items. This serving board features a nontoxic, odorless melamine construction that's SGS-certified for food contact. Melamine, which is a synthetic resin that becomes hardened and formed after heating, looks like porcelain but is more durable and lightweight. This serving board is heat- and corrosion-resistant and has a temperature range of -20°C to 70°C (-4°F to 158°F). This large, 1/1-size gastronorm board can hold a large quality of items.
